16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

I used AI for text analysis, as I did not understand the instructions for personas when first diving into the proposal, but for other parts of the proposal, I did not need an AI breakdown, which is why I said evenly split. I used AI to proofread my personas to make sure I grasped what the instructions were requesting. I also used AI for text ideation, as an example of a persona was given to me when I asked for a breakdown of what a persona is.
