2. Last Name (as appears on Canvas) *

   Chen

3. Student ID *

   301580068

4. Which assignment/lab/project submission is this AI use disclosure for? *

   Project submissions are included as "MX" aka Milestone X, where X is the milestone number

   M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	◉	○	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I believe that it is completely acceptable to use AI for this as it allows users to learn new technologies to use in this project milestone. It also allows users to scale their project faster as long as users understand the code or output that the AI provides.

7. Did you use AI tools for this submission? *

◉ Yes

○ No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	○	○	◉	○

9. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	○	◉	○	○	○

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

    AI somewhat benefited my learning because I used it to help me set up an API GET request file, So I believe that it benefited me since I learned something new.

11. List the name all the AI tools that you used for this submission *

    Claude Sonnet 4

12. How confident were you in AI's responses that you received? *

    - ○ Confident
    - ◉ Somewhat confident
    - ○ Neutral
    - ○ Somewhat not confident
    - ○ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

    I ensured the answer I received was correct by cross checking with how a API request file works structure wise, then reading what the AI tool gave and further understood how the logic calls the API.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional)

    What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

In this milestone, I did not need to do any of the following: text analysis, summarizing, research, or writing. Thus, they are not applicable for this milestone declaration. I gave myself "Mostly by AI for the following code sections: Write, debug, and explanation. I asked AI to create a file that handles the API request from Geonames and further asked it to explain to me each step of the file, as well as explain it to me how it works logically from the server to our code. In addition, when we were using GeoDB API, we had trouble grabbing cities, so I also used AI to help me debug, along

with my own understanding of how an API works.

For the search function, I created the component using shadcn library parts, and asked AI to style it for me using fancy UI components with tailwind. I then asked it to explain what it added to my search bar component. For testing components of the milestone, I did not contribute to any testing steps, so the option is not applicable.

17. Please provide use this space to provide any other information that you'd like to disclose (optional)
